WHEREAS, on July 8, 1988, the people of the City of Chino adopted Measure M to amend the General Plan, and it is now codified as Sections 20.15.010 and 20.15.020 of the Chino Municipal Code; and

WHEREAS, the adoption of Measure M limits the proliferation of residential developments by prohibiting the City Council of the City of Chino from rezoning non-residential land for residential uses without voter approval; and

WHEREAS, the approximately 29.7 acres of vacant land described below are designated for RD 1 uses in the General Plan and the land is located in an area surrounded by residential to the east, west, and north, commercial to the south, and a city water facility to the northeast; and

WHEREAS, the best use of the 29.7 acres of land, described below, is for housing at varying densities in order to provide for a variety of housing types that meet the housing needs of residents of all income levels and create neighborhoods that facilitate walking and bicycling (the “Project”); and

WHEREAS, the City Council has previously found and determined, as required by *Friends of Sierra Madre v City of Sierra Madre* (2001) 25 Cal.4th 165, that the Project will have a significant adverse impact on the environment, as the Brewer Site Project Environmental Impact Report (EIR), dated February 15, 2017 was certified by the City Council on April 4, 2017. The City Council determined through the certification of the EIR that the benefits of the Project outweigh the unavoidable adverse environmental impacts through a Statement of Overriding Considerations. The City Council adopted a Mitigation Monitoring and Reporting Program through the certification of the Final EIR, which all mitigation measures will be made a condition of approval for subsequent development entitlements for the project site.
