Subject: Manuel Salinas polling place/church polling places

Hello,

Although the Manuel Salinas Elementary School in San Bernardino is right around the corner from me, and is usually my designated polling place, I want to ask that you not use that polling place.

They use a very small, non-air conditioned room and it is very uncomfortable. What requirements do you make of places who are designated polling places? Especially with COVID, will you be providing hand sanitizer and requiring air?

Also, I want to comment on the use of churches for polling places. There should be a separation of church and state! And also, we should not be desecrating churches by allowing the masses to trample in and hold elections there.

Surely, there are plenty of city, county, state-owned businesses that can serve as election polls. What about the Orange Show? Or SBVC?

Thank you,
