Subject: Access to polling places

There's no excuse to only open half as everyone can wear a mask same as at the grocery store. San Bernardino must Open all the Polling places, every mail in voter has the right to go to their polling place and make sure their Mail in vote has been recorded. Every California voter has the right to access regardless of class, ethnicity, neighborhood or transit. Also all voters need access to a state voter ballot box so that they can go and drop their ballot in the box as the Postal Service May lose ballots which is unacceptable.

Thank you
Osgood
