Subject: Polling places

Hi,

I'm concerned about the availability of polling places for the City of Hesperia. 3 locations are located on the same street within a short distance of each other. 2 schools and 1 church. Why aren't there any other schools available? These are public property and do not cost anything beyond labor. Hesperia DOES NOT have a widely available public transit option. I understand we (California) will be statewide mail in voting but you MUST provide options for those who prefer to vote in person. Beyond that, please provide secure drop off locations for those who wish to do so and to avoid overwhelming the postal service. Many of them. Elimination of 50% of polling locations contributes to voter suppression especially here in the High Desert. We are a population of at least 100K with 8 places to vote. And possibly one drop off location. Please help us have access to voting. Thank you.
